September 1958

AUGUST UNIFORM PRICE \$3.81

Dairy farmers will receive a uniform price of \$3.81 for August 1958 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent and will be adjusted by a differential of 7.0 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This minimum price is subject to a 3 cent per hundredweight marketing service deduction, together with the authorized hauling charge.

PRODUCER RECEIPTS

The statistics on producer receipts are not comparable with previous months in this market, because of a change in the marketing area. In August there were 1311 producers, as compared with 991 in July. This is an increase of 320 producers on the market because of the extended marketing area. Actually there were more than 320 new producers on the market because some 100 producers that were on in July have transferred to the Chicago market, due to amendments to the South Bend-LaPorte-Elkhart, Indiana, Order. Daily herd production is considerably lower than in July or August a year ago, but is not a correct comparison because it represents a partially different group of producers.

CLASS I SALES

There were almost sixteen million pounds of Class I sales reported under the new marketing area, which includes the whole counties of LaPorte, St. Joseph and Elkhart. The former marketing area included just the cities of South Bend, Mishawaka, LaPorte, and Michigan City. The increase is 47 percent over July and almost 31 percent over August of 1957. A comparison of these statistics with former months and years will be of little value until a yearly record has been established under the amended order with the extended marketing area.

CLASS I PRICE

The Class I price for the September delivery period will be \$4.02 per hundredweight for 3.5 percent Grade A milk. This price was computed by adding \$1.30 per hundredweight to the average price of the 12 condenseries in August (\$2.96) and deducting the supply-demand adjustment of 24 cents. The supply-demand adjustment for the October delivery period will be only a minus 2 cents, which will have an effect of raising the Class I price 22 cents.
